Austin Power | Commercial & Utility-Scale Solar Field Services

FIELD EXECUTION FOR SOLAR ASSETS

COMMERCIAL · UTILITY-SCALE · NEW ENGLAND AND EASTERN NEW YORK

OUR MISSION

Keep your power flowing

Why

We believe that a solar asset is only as valuable as its uptime, and no manager should have to sweat over prolonged production losses.

How

We protect your investments by deploying highly skilled, fast-responding field technicians throughout New England and eastern New York who specialize in rapid troubleshooting and emergency response.

What

We provide comprehensive, utility-scale corrective maintenance, complex inverter repairs, and thorough electrical diagnostics to keep your power flowing.

217	240 MW	7	2	24/7
SITES UNDER SERVICE	UNDER SERVICE	STATES	REGIONAL HUBS	MONITORING & RESPONSE

PRIORITY RESPONSE

When production is at risk, response speed matters

01

Mobilize

Priority response.

02

Diagnose

Rapid troubleshooting and root-cause focus.

03

Repair

Corrective maintenance and inverter/electrical repair.

04

Report

Clear field execution, reporting, and data.

01

24/7 priority mobilization

Grid disconnects, critical equipment failures, severe weather events, and safety hazards.

02

Rapid troubleshooting

Emergency response for commercial and utility-scale assets.

03

Coordinated field response

For the moments when lost production and operational risk compound.

Four capabilities keep complex solar assets moving

01

Expert troubleshooting & diagnostics

Advanced root-cause analysis and production-loss investigations.

02

Inverter & electrical repairs

Central and string inverters, transformers, and medium-voltage distribution systems.

03

Corrective maintenance

Component failures, ground faults, tracker malfunctions, and DC/AC distribution issues.

04

Emergency rapid response

Priority mobilization when the site cannot wait.

REGIONAL PROOF

New England coverage turns response into an advantage

Service area: Massachusetts, Connecticut, Rhode Island, Vermont, New Hampshire, and Maine, and eastern New York.

Regional proof: 7 states, 217 sites · 240 MW under O&M, 2 strategic hubs: Saco and Boston, 1 committed team.

THE TECHNICAL DIFFERENCE

We solve the fault beneath the fault

Regional responsiveness

Deep New England footprint built to shorten Mean Time to Repair.

Elite technical skill

Specialized solar diagnostics, central inverter typologies, and high-voltage safety standards.

Rigorous root-cause focus

Production-loss investigations uncover hidden bottlenecks and help prevent recurring failures.

Seamless O&M integration

Transparent reporting, clear data, and zero-friction field support.

Built for the partners who need reliable field execution

Solar asset owners

Protect investment value and reduce prolonged production losses.

Portfolio managers

Gain a responsive regional partner for complex site issues.

National O&M providers

Extend your team with dependable New England self-perform support.

Asset types: commercial & industrial, community solar, and utility-scale ground mounts.

PUBLIC INFRASTRUCTURE, TRANSIT & CIVIC

Trusted by public infrastructure & civic portfolios

Martha’s Vineyard Area Transit	**Cape Cod Transit** Building and Parking	**Waterfront Boston**
John Adams Building	**Winchester DPW**	**Medford DPW Building**
Town of Fairhaven	**Water Treatment**	**Norway Landfill**
South Portland Landfill	**Bristol Community Landfill**	**Town of Holliston Fire Department**

HIGHER EDUCATION & INDEPENDENT SCHOOLS

Trusted by academic & higher education portfolios

Bates College	**Tufts University** Lewis Hall and Science & Engineering Center	**UMass** University Hall and West Garage
Smith College Northampton	**Salem State University** Library, Fitness Center, and Marsh Hall	**Endicott College** Beverly
Avon Old Farms **Foxcroft Academy**		

COMMERCIAL, INDUSTRIAL & RETAIL

Trusted by commercial, industrial & retail portfolios

Kohl's Taunton, Saugus, Dartmouth, Burlington, Plymouth	**Walgreens** **Whole Foods Market**	**UNFI** **Agilent Technologies**
CubeSmart Boston, Brighton, Haverhill, Lawrence, Medford, Newton	Stoneham, Tewksbury, Waltham, Walpole, Shelton, Wilton	**AvalonBay Communities** Marlboro, Acton, Woburn
Clarks America Headquarters Waltham	**Simplex** **Smith & Wesson**	**Niagara Bottling Company**

PUBLIC SCHOOLS & COMMUNITY INSTITUTIONS

Trusted by schools & community institutions

Brooke Charter School Chelsea Clark Middle School	Grafton High School Tyngsboro High School	Winchester High School Woburn Goodyear School	Woburn Hurld Wyman School Woburn Joyce Middle School

THE NEXT CONVERSATION

Keep your power flowing with a field partner built for uptime

Austin Power brings rapid response, deep technical execution, and regional coverage to the moments that matter.

1

Safety and compliance

OSHA 10/30, NFPA 70E Electrical Safety, fully insured and bonded licensed electricians.

2

Start with the sites

Failure modes and response expectations where an extension of your team would create the most value.
